The PetDetect System works with these software systems:

IDEXX Cornerstone®, IDEXX Neo, IDEXX ezyVet, DVMAX 8.5 and higher, AVImark®, Gingr, Chameleon Software (HLP, Inc.), ClientTrax, ImproMed® Infinity, IntraVet® (Webster Veterinary), Kennel Link™, Kennel Connection (Blue Crystal Software), K9 Coordinator (K9 Bytes®), KennelSoft (Atlantis), Paw Partner, Pawloyalty, PetExec, PetLinX (Software Revolutions), PetTech Pro, and Shelter Pro.

Printer warranty is void if media other than PetDetect products are used, as that can cause abrasions on the printhead. IDEXX will not support the use of other media types in the PetDetect printer nor will we support third-party printers or third-party print drivers not purchased through IDEXX or our authorized PetDetect distributors.

Front: Rainbow Bridge poem; excerpt below.

Rainbow Bridge Poem:
When a beloved pet dies, it goes to the Rainbow Bridge. It makes friends with other animals and frolics over rolling hills and peaceful, lush meadows of green. Our pets do not thirst or hunger. The old and sick are made young once more; the maimed and the ill become healed and strong. They are as healthy and playful as we remember them in days gone by. Though happy and content, they still miss someone very special, someone they had to leave behind. Together, the animals chase and play, but the day comes when a pet will suddenly stop and look into the distance...bright eyes intent, eager body quivering. Suddenly recognizing you, your pet bounds quickly across the green fields and into your embrace. You celebrate in joyous reunion. You will never again separate. Happy tails and kisses are warm and plenty; your hands caress the face you missed. You look over more into the loving eyes of your pet and know you never truly parted. You realize that though out of sight, your feet had been remembered. And now, you cross the Rainbow Bridge together...
